

Circulation - FAST CONDITIONS

A4 to Salford and Bristol

Weir

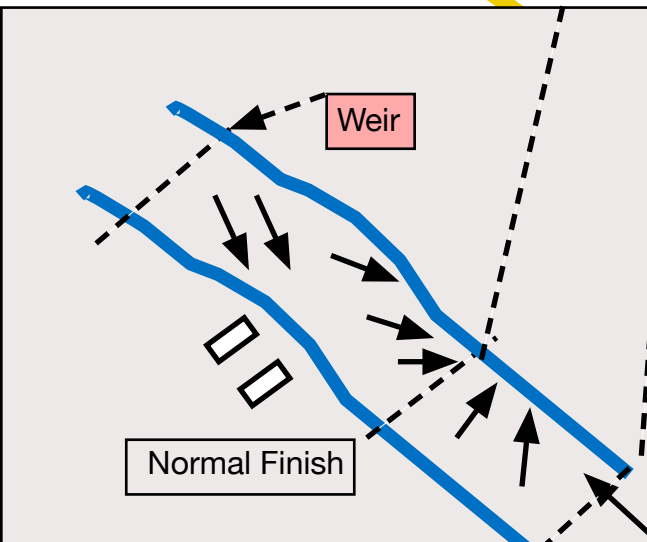

Warning: the river is open to other traffic. Keep right on the way to the start and look out for other boats.

Salford Rowing Centre - Event Headquarters

Finish

Take great care at the Bottom bridge. There is an awkward buttress in the middle. Listen for umpires' instructions .

Boats rowing over the SHORT COURSE will marshall immediately above the Bottom bridge, facing upstream. Turn to race only when instructed to do so by the umpire. The short start is about 20 strokes downstream of the bridge.

Normal Finish

Fast Stream Finish

If the stream is strong, the finish will be moved about 100 m upstream. Turn upstream of the boathouses, keep your stern in the middle of the river and your bows near the bank away from the boathouse. With a little help the stream will turn you. Then paddle towards the boat house side, and come onto the stage.

Fast Stream conditions - only if announced before the race
