36c	37	33.5	40	67	61	71	65	75	69
38c	39	35	42	68.5	62	72.5	66	76.5	70
40c	41	37	44	69.5	62	73.5	66	77.5	70

Measuring Advice.

- A- Measure the circumference of your bust at the fullest part.
- B- Measure the circumference of your natural waist.
- C- Measure the circumference of your hips at the fullest part.
- D-E- Straight sleeve (sleeve crown to cuff edge) This is your sleeve length.
- H-I- Nape of neck to hem (bottom of collar to the hem) This is your Jacket Length.

*Measurements A, B and C are best taken as an actual body measurement. This will provide a more accurate measurement than when taken with clothes on.

Using these measurements select your appropriate "Perry Size". State this size when ordering your blazer.

You then have the choice to select whether you would like our short, regular or long length style.

Please note- These are average measurements only. Garments may vary slightly due to production tolerance.
